

## **SAFETY DATA SHEET**

Preparation date: 11.04.2017.

Revision date: -

Ver.: 1.0

### **1. IDENTIFICATION OF THE SUBSTANCE OR MIXTURE AND OF THE COMPANY/UNDERTAKING**

**1.1. Product identifier:** **Brill Bird Color Builder Gel**

**1.2. Relevant identified uses of the mixture and uses advised against:**

**Builder gel for artificial nails for cosmetic use.**

**For professional use only.**

**1.3. Details of the supplier of the safety data sheet:**

Brillbird Europe Ltd.

1066 Budapest, O utca 46.

tel.: 06-30/506-8820

e-mail: [brbirdeurope@gmail.com](mailto:brbirdeurope@gmail.com)

**1.4. Emergency telephone number:**

| <b>Country</b>  | <b>Name</b>  | <b>Phone No.</b>    | <b>Availability</b>          |
|-----------------|--|---------------------|------------------------------|
| <b>Hungary</b>  | <b>Egészségügyi Toxikológiai Tájékoztató Szolgálat (ETTSZ)</b> | <b>+36 80201199</b> | <b>call around the clock</b> |
| Austria         | Vergiftungsinformationszentrale                                | +43 14064343        | call around the clock        |
| Belgium         | Antigifzentrum   | +32 070245245       | call around the clock        |

## SAFETY DATA SHEET

Preparation date: 11.04.2017.

Revision date: -

Ver.: 1.0

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

The product is considered dangerous and contains the following hazardous substances

| Chemical name                                    | CAS No.    | EU No.    | INCI name                                | Classification according to Regulation (EC) No. 1272/2008 [CLP] | Hazard statements    | m %    |
|--|------------|-----------|--|---|----------------------|--------|
| Aliphatic Urethane Acrylate                      | -          | -         | Aliphatic Urethane Acrylate              | Skin Irrit. 2<br>Eye Irrit. 2                                   | H315<br>H319         | 50-100 |
| Ditrimethylolpropane Tetraacrylate               | 94108-97-1 | 302-434-9 | Ditrimethylolpropane Tetraacrylate       | Skin Irrit. 2<br>Eye Irrit. 2<br>STOT SE 3                      | H315<br>H319<br>H335 | 5-10   |
| 1,2-Propanediol, Monomethacrylate                | 27813-02-1 | 248-666-3 | Hydroxypropyl Methacrylate               | Skin Sens.1<br>Eye Irrit.2                                      | H317<br>H319         | 1-5    |
| Diphenyl(2,4,6-trimethylbenzoyl) Phosphine Oxide | 75980-60-8 | 278-355-8 | Trimethylbenzoyl Diphenylphosphine Oxide | Repr. 2   | H361f                | 0.1-1  |

There are no additional ingredients present which, within the current knowledge of the supplier, are classified and contribute to the classification of the substance and hence require reporting in this section.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs or vPvBs or have been assigned a workplace exposure limit and hence require reporting in this section.

## **SAFETY DATA SHEET**

Preparation date: 11.04.2017.

Revision date: -

Ver.: 1.0

### **4. FIRST AID MEASURE**

#### **4.1. Description of first aid measures**

|                         |   |
|-------------------------|---|
| If inhaled              | Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.  |
| In case of skin contact | Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical attention. In the event of any complaints or symptoms, avoid further exposure. Wash clothing before reuse. Clean shoes thoroughly before reuse.   |
| In case of eye contact  | Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.   |
| If swallowed            | Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt |

## **SAFETY DATA SHEET**

Preparation date: 11.04.2017.

Revision date: -

Ver.: 1.0

or waistband.

Protection of first-aiders No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

### **4.2. Most important symptoms and effects associated with exposure**

#### **Potential acute health effect**

If inhaled No known significant effects or critical hazards.

In case of skin contact Causes skin irritation. May cause an allergic skin reaction.

In case of eye contact Causes serious eye irritation.

If swallowed Irritating to mouth, throat and stomach.

#### **Over-exposure signs/symptoms**

If inhaled No specific data.

In case of skin contact Adverse symptoms may include the following: irritation, redness.

In case of eye contact Adverse symptoms may include the following: irritation, watering, redness.

If swallowed No specific data.

### **4.3. Indication of immediate medical attention and special treatment needed**

Notes to physician Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

Specific treatment No specific treatment.

## **5. FIREFIGHTING MEASURES**

### **5.1. Extinguishing media**

Recommended Use an extinguishing agent suitable for the surrounding fire

To avoid Not known.

## **SAFETY DATA SHEET**

Preparation date: 11.04.2017.

Revision date: -

Ver.: 1.0

### **5.2. Specific hazards during fire fighting**

Hazards from the substance or mixture In a fire or if heated, a pressure increase will occur and the container may burst.

Hazardous thermal decomposition products Decomposition products may include the following materials: carbon dioxide, carbon monoxide, phosphorus oxide.

### **5.3. Advice for firefighters**

Special protective actions for fire-fighters Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Special protective equipment for fire-fighters Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.

## **6. ACCIDENTAL RELEASE MEASURE**

### **6.1. Personal precautions, protective equipment and emergency procedures**

For non-emergency personnel No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Avoid breathing vapour or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

For emergency responders If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also Section 8 for additional

## **SAFETY DATA SHEET**

Preparation date: 11.04.2017.

Revision date: -

Ver.: 1.0

### **6.2. Environmental precautions**

information on hygiene measures.

Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

### **6.3. Methods and materials for containment and cleaning up**

Small spill

Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Large spill

Stop leak if without risk. Move containers from spill area. Approach the release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilt product.

### **6.4. Reference to other sections**

See Section 1 for emergency contact information. See Section 8 for information on appropriate personal protective equipment. See Section 13 for additional waste treatment information.

## **7. HANDLING AND STORAGE**

### **7.1. Precautions for safe handling**

Protective measures

Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process which this product is used. Do not get in eyes or on skin or clothing. Do

## **SAFETY DATA SHEET**

Preparation date: 11.04.2017.

Revision date: -

Ver.: 1.0

not ingest. Avoid breathing vapour or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

Advice on general occupational hygiene Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

### **7.2. Conditions for safe storage**

Requirements for storage areas and containers Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.

### **7.3. Specific end uses**

Recommendations Not available.

## **8. EXPOSURE CONTROLS/PERSONAL PROTECTION**

**8.1. Occupational exposure limits** No exposure limit value known.

### **8.2. Exposure controls**

Engineering controls Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Individual protection measures

## **SAFETY DATA SHEET**

Preparation date: 11.04.2017.

Revision date: -

Ver.: 1.0

|                                 |  |
|---------------------------------|--|
| Hygiene measures                | Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reusing.  |
| Respiratory protection          | Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.  |
| Eye/face protection             | Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.   |
| Hand protection                 | Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. |
| Skin and body protection        | Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |
| Environmental exposure controls | Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In   |

## **SAFETY DATA SHEET**

Preparation date: 11.04.2017.

Revision date: -

Ver.: 1.0

some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

### **9. PHYSICAL AND CHEMICAL PROPERTIES**

#### **9.1. Information on basic physical and chemical properties**

|                          |                                |
|--------------------------|--------------------------------|
| Appearance               | Viscous liquid.                |
| Colour                   | Various.                       |
| Odour                    | Characteristic acrylate odour. |
| Melting / freezing point | No data available. .           |
| Boiling point            | No data available.             |
| Flash point              | No data available.             |
| Vapour pressure          | No data available.             |
| Relative density         | No data available.             |
| Solubility               | No data available.             |
| Viscosity                | No data available.             |

#### **9.2. Other information**

No additional information.

### **10. STABILITY AND REACTIVITY**

|   |  |
|---|--|
| <b>10.1. Reactivity</b>                         | No specific test data related to reactivity available for this product or its ingredients. |
| <b>10.2. Chemical stability</b>                 | Stable under normal conditions of storage and use.   |
| <b>10.3. Possibility of hazardous reactions</b> | No specific data.  |
| <b>10.4. Conditions to avoid</b>                | Extreme temperatures, open flames, strong oxidisers, strong acids.                         |
| <b>10.5. Incompatible materials</b>             | No specific data.  |
| <b>10.6. Hazardous decomposition products</b>   | In case of fire, oxides of carbon, hydrocarbons may be produced.                           |

Preparation date: 11.04.2017.

Revision date: -

Ver.: 1.0

### **11. TOXICOLOGICAL INFORMATION**

**11.1. Information on toxicological effects** No information available.

#### **11.2. Most important symptoms and effects associated with exposure**

##### **Potential acute health effect**

|                         |  |
|-------------------------|--|
| If inhaled              | No known significant effects or critical hazards.            |
| In case of skin contact | Causes skin irritation. May cause an allergic skin reaction. |
| In case of eye contact  | Causes serious eye irritation.                               |
| If swallowed            | Irritating to mouth, throat and stomach.                     |

##### **Over-exposure signs/symptoms**

|                         |  |
|-------------------------|--|
| If inhaled              | No specific data.  |
| In case of skin contact | Adverse symptoms may include the following: irritation, redness.           |
| In case of eye contact  | Adverse symptoms may include the following: irritation, watering, redness. |
| If swallowed            | No specific data.  |

#### **11.3. Delayed and immediate effects as well as chronic effects from short and long-term exposure**

|                     |                           |
|---------------------|---------------------------|
| Short term exposure | No information available. |
| Long term exposure  | No information available. |

**11.4. Potential chronic health effects** Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.

## **SAFETY DATA SHEET**

Preparation date: 11.04.2017.

Revision date: -

Ver.: 1.0

### **12. ECOLOGICAL INFORMATION**

**12.1. Toxicity** No information available.

**12.2. Persistence and degradability** No information available.

**12.3. Bioaccumulative potential** No information available.

#### **12.4. Mobility in soil**

Soil / water partition coefficient (K<sub>oc</sub>) Not available.

Mobility Not available.

#### **12.5. Results of PBT and vPvB assessment**

PBT Not applicable.

vPvB Not applicable.

**12.6 Other adverse effects:** No known significant effects or critical hazards.

### **13. DISPOSAL CONSIDERATIONS**

#### **13.1. Waste treatment methods**

##### **Product**

Methods of disposal The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant

## **SAFETY DATA SHEET**

Preparation date: 11.04.2017.

Revision date: -

Ver.: 1.0

Hazardous waste with the requirements of all authorities with jurisdiction.  
The classification of the product may meet the criteria for a hazardous waste.

### **Packaging**

Methods of disposal The generation of waste should be avoided or minimized wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

Special precautions This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapour from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

### **14. TRANSPORT INFORMATION**

This product is NOT classified as dangerous goods.

**14.1. UN No.** -

**14.2. Proper shipping name** -

**14.3. Transport hazard class** -

**14.4. Packing group** -

**14.5. Environmental hazards** None.

**14.6. Special precautions** Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

**14.7. Transport in bulk** Not available.

## **SAFETY DATA SHEET**

Preparation date: 11.04.2017.

Revision date: -

according to Annex II of  
Marpol and the IBC Code

### **15. REGULATORY INFORMATION**

- 15.1. Other regulation**            1223/2009/EEC: Regulation on cosmetic products
- 15.2. Chemical Safety Assessment**            Chemical safety assessment was prepared neither for the ingredients, nor for the product itself.

### **16. OTHER INFORMATION**

Note of supplier of material safety data sheet

**Note: Since the product is marketed as a cosmetic product, thus, it is out of scope of CLP regulation 1272/2008. However, in order to facilitate the chemical risk assessment of work places for professional users, the classification and labelling elements in accordance with CLP are included.**

**The product is labelled in accordance with 1223/2009/EEC. The product is intended only for professional use.**

This MSDS is based on data of the original safety data sheet provided by the manufacturer, using the up-to-date version of regulation 1907/2006. The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. The information in this document is based on the present state of our knowledge and is applicable to the product with regard to appropriate safety precautions. It does not represent any guarantee of the properties of the product, therefore it cannot be used to verify quality compliance. Brillbird Europe Ltd. shall not be held liable for any damage resulting from handling or from contact with the above product.
