Inhalation:

Remove individual to fresh air.

Skin contact:

First aid is not normally required, however, it is good practice for exposed areas to be washed with soap and water.

Eye contact:

Eye contact, immediately rinse with plenty of water for at least 15 minutes while pulling the eyelids apart with your fingers. In case of complaint, seek medical advice.

Ingestion:

One or two glasses of water to drink. Do NOT induce vomiting! Medical care must be used!

5. FIREFIGHTING MEASURES

5.1. Extinguishing media: use carbon dioxide, dry chemical or foam.

5.2. Special hazards arising from the substance or mixture: when exposed to heat and flame, material is a fire explosion hazard. Use water spray to keep fire-exposed containers cool.

5.3. Advice for fire fighters: full protective equipment, including self contained breathing apparatus is recommended.

6. ACCIDENTAL RELEASE MEASURES

6.1. Personal precautions: Avoid substance contact. Do not inhale vapours/aerosols. Ensure supply of fresh air in enclosed rooms. See Sections 7 et 8.

6.2. Environmental precautions: Prevent product from entering drains or watercourses. If a large amount of product contaminates ground water, rivers or drains (or is likely to do so), notify the relevant authorities, following the statutory procedures.

6.3. Methods and material for containment and cleaning up:

Small spills: Absorb liquid with vermiculite or other spill absorbent material.

Large spills: Persons not wearing protective equipment should be evacuated from area of spill until clean-up has been completed. Stop spill at source, dike area of spill to prevent spreading, pump liquid to salvage tank, remaining liquid may be absorbed by sand, clay, earth, floor absorbent, or other absorbent material and shovelled into containers.

7. HANDLING AND STORAGE

7.1. Handling: Observe precautions found on the label. Wash face and hands thoroughly with soap and water after handling and before eating, drinking or smoking. Avoid prolonged or repeated contact with skin. Avoid contamination. Use only with adequate ventilation.

7.2. Storage: Store in cool, dry place away from heat, sparks, flame and direct sunlight. Close container after each use.

7.3. Specific end use(s): Avoid sources of ignition, or the extremely high temperatures.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering controls: Good general ventilation should be sufficient to control airborne levels in small quantity use. Local exhaust is recommended for bulk repackaging or continuous large quantity use.

Occupational exposure controls:

The proper care is needed when working in preparation for clothing, eye, or. avoid skin contact. Normal conditions of use and use with adequate ventilation. During breaks and after work wash your hands.

Personal protective equipment (PPE):

Respiratory protection: usually not necessary. However, inhalation of dusts and fumes should be avoided.

Hand protection: appropriate chemically resistant gloves (EN 374) is prolonged, direct contact, which corresponds to > 480 minutes of penetration of, for example. nitrile rubber (0.4 mm), CR (0.5 mm). Wash when contaminated. If the punctured gloves inside, stained, respectively. the dirt can be removed, the glove should be treated as hazardous waste.

Eye protection: safety glasses with side shields (EN 166).

Skin Protection: wear appropriate protective clothing (EN 463).
